

EMERGENCY SNOW REMOVAL POLICY

Normal removal of snow shall be in the following order to help in the movement of traffic for the greatest number of people, and emergency personnel both around, and into and out of the community.

- 1.) Clearing of the main east-west streets shall be first; Lincoln, Market and Main & then the alley south of the Commercial businesses (in between the Commercial businesses & Brockett Park) but not specifically in that order. The clearing of north-south streets shall then follow the east-west streets.
- 2.) The clearing of alleys, gravel streets and parking lots and removal of piles of snow shall be last.

Snow plowing shall be done by pushing $\frac{1}{2}$ of the snow each direction from the streets, dependent upon the wind direction and where the snow has piled. The above policy may vary or the maintenance personnel may change the above according to conditions.

EMERGENCY SNOW PARKING BAN POLICY

No person shall park, abandon or leave unattended any vehicle on any public street, alley or city owned off-street parking area during snow emergency operations unless the snow has been removed or plowed from the street, alley or parking area and the snow has ceased to fall. A snow emergency parking ban shall continue from the prediction of snow/ice storm through the duration of the snow or ice storm and the 48-hour period after cessation of such storm except as provided in this section upon streets which have been fully opened. It is recommended that residents of the community to stay current on any local weather conditions. Such a ban shall have uniform application and it is the responsibility of the City Clerk to publicize the requirements widely (posting at designated spots, newspaper & posting on GDC website). Such emergency may be extended or shortened when conditions warrant.
